

RenewData Marketing Leadership and Forensic Services Team Transitions Poise Company to Take Advantage of Market Growth

Austin, Texas, April 17, 2009 — RenewData, a leading provider of services for the discovery, archiving, and governance of electronically stored information (ESI), today announced it has appointed Rich Cohen to lead the company's marketing efforts and has promoted Brian Brown and Danny Aga to lead the company's forensic services. These transitions are an integral part of the company's continued focus to deliver optimal client satisfaction and the services necessary to establish a more proactive approach to litigation readiness and information governance.

Rich Cohen, currently Executive Vice President of Legal Services, will continue to lead RenewData's external activities and client services functions, as well as the marketing efforts including press and analyst relations, product marketing, and corporate marketing functions. Bringing the marketing function within Cohen's team will enable streamlined efforts and ensure the appropriate e-discovery, ESI risk management, archiving, and information governance services and strategies are met for every client. Cohen joined RenewData in May 2008 and previously served as the Senior Vice President & Managing Director of Legal Services at a large legal services organization where he was actively involved in the administration of complex litigation and large bankruptcies. In addition, he has been the COO of Integrex Professional Claims Services, and General Counsel at Ohio Power and Columbus Southern Power Companies. Cohen is also active in various industry organizations including the American Corporate Counsel Association, American Bar Association, and the American Bankruptcy Institute.

"Our marketing team is very well positioned to deliver exceptional field level support while also remaining focused on the longer term initiative with information governance," said Steven Horan, CEO for RenewData. "I am confident that our current and future client technology and delivery capabilities are rooted in client and market needs, while Rich's

experience and knowledge will further enable us to continue enhancing and providing the most cost effective client solutions with the highest standard of quality.”

As Senior Client Advisors, Brown and Aga actively manage and conduct RenewData’s forensic acquisitions and investigations. Both Brown and Aga will be performing forensic imaging and analysis for numerous, high profile RenewData clients.

“RenewData’s forensic services are a core capability and integral part of our strategy,” said Horan. “Our clients are increasingly relying upon us to conduct their most sensitive forensic tasks. The forensic experience and knowledge that Brian and Danny possess are critical to the growth and continuation of these service offerings and I’m proud to have them running these services for RenewData. Having them on our team gives us a great competitive advantage.”

Brown has been with RenewData for nearly five years, previously serving in various capacities including Director of IT and Director of Corporate Security. Brown’s certifications include licensed Private Investigator in the state of Texas, EnCase Certified Examiner (EnCE), Certified Information Systems Security Professional (CISSP), INFOSEC Assessment Methodology (IAM) and Mobile Phone Seizure Certification (MPSC). Prior to RenewData, Brown worked for Complete Data Solutions, Stayhealthy.com Inc, and Dell Computer.

Aga has been with RenewData for nearly five years and was formerly the Special Projects Supervisor in RenewData’s process engineering department. Prior to RenewData, Aga worked as an independent IT consultant, as well as for Dell Computer as a Software QA Analyst. Aga’s certifications and advanced courses include licensed Private Investigator in the state of Texas, Mobile Phone Seizure Certification (MPSC), EnCase Certified Examiner (EnCE), EnCase Advanced Internet Examinations, EnCase NT File System and Artifacts, and EnCase Intermediate Analysis and Reporting.
